TS-9133i — TALKSWITCH BUSINESS IP TELEPHONE

The TS-9133i is a fully-featured IP phone with line or extension appearances and one-touch TalkSwitch feature keys. Sleek and elegant, it's a premium full duplex IP speakerphone with excellent voice clarity.

IP Convenience: Connect to the TalkSwitch telephone system over the office LAN without the need for separate telephone wiring. The TS-9133i is equipped with dual Ethernet ports, so only one LAN jack is required per workstation.

Key-System Functionality: 7 programmable keys provide direct access to line or extension appearances and TalkSwitch features.

Easy Installation: Installation of an IP telephone has never been so simple, with automatic TalkSwitch discovery and configuration over the LAN.

On or Off Premise: When used over the Internet, the TS-9133i provides the same access to TalkSwitch features as if working in the office, making it the ideal solution for teleworkers.
